

Straight Talk

Small language group is offered for children ages 4-6 years who produce /s, sh, ch, j, z/ sounds with a lateralized production.

Group meets one time per week for one hour with 10 sessions throughout the summer.

Maximum group size is 8 children with 2 speech-language pathologists.

The group focuses on the production of sounds in isolation, syllables, words, phrases and sentences.

Parents are able to observe and are offered suggestions for home carryover.
