

## Autism Diagnostic Clinic

### **Comprehensive. Family-Focused. Supportive.**

Caring and experienced professionals will provide your family with a comprehensive assessment of your child's development through the expertise of a:

- Psychologist
- Speech-Language Pathologist
- Occupational Therapist
- Social Worker

Our team approach allows your family to receive an evaluation, individualized treatment plan, and immediate suggestions of ways to work with your child at home.

Recommendations, educational resources, and on-going support from a licensed social worker are offered to help your family understand and navigate the next steps in your child's development.

**Contact us today for a comprehensive, transdisciplinary assessment.**
