

Autism Diagnostic Clinic

Comprehensive. Family-Focused. Supportive.

Caring and experienced professionals will provide your family with a comprehensive assessment of your child's development (ages 1-5) through the expertise of a:

- Psychologist
- Speech-Language Pathologist
- Occupational Therapist
- Family Advocate

Our team approach allows your family to receive an evaluation, individualized treatment plan, and immediate suggestions of ways to work with your child at home.

Recommendations, educational resources, and on-going support from a family advocate are offered to help your family understand and navigate the next steps in your child's development.

Contact us today for a comprehensive, transdisciplinary assessment.
